NetOpac 5.4.3 Release Notes

RELEASE NOTES

The following outlines that changes that have been made to the NetOpac module for version 5.4, (5.4.1, 5.4.2)

This patch should only be installed by libraries who meet ALL the following criteria:

- **Currently on Amlib v5.4 (v5.4.1 or v5.4.2)**
- **Using double entry/double line accounting**
- **Charge for the placing of a reservation**
- **Allow borrowers to cancel reservations via the NetOpacs**

Amlib NetOpacs v5.4.3 patch release, providing updates to Amlib NetOpacs v5.4 / 5.4.1 /5.4.2 is now available from the Amlib area of our OCLC Support and Training Website. Details of the software updates and user documentation are included below.

Fixes

- 11405426 When a reservation is cancelled via a Netopac and a credit given for the charge on reservation, outstanding amount for the transaction is not checked before inserting the credit in double entry accounting.
- If this has occurred, it can be corrected by running the 'CheckPaymentsLink' facility. If this is required, a new version of CheckPaymentsLink is available from the OCLC site for use with Version 5.4.of Amlib.

You will need to install the new version of **CheckPaymentsLink** from the OCLC site:

<https://www.oclc.org/support/services/amlib.en.html>

If you do not fulfil all of these conditions then you do not need to install this patch
