What Z39.50 information do I need to configure OCLC Z39.50 Cataloging?

Objective

• Set up a Z39.50 connection for cataloging

Applies to

• Connexion client
• Z39.50 Cataloging

Steps

You will need the following

1. Domain name: zcat.oclc.org
2. Port: 210
3. Your Cataloging Authorization Number
4. The password for your Cataloging Authorization Number.

Additional information

New Cataloging Authorizations can be requested from Orders. Only full cataloging subscriptions can use Z39.50 cataloging.
