Why won't my logo display properly on WorldCat Discovery?

Last updated: Mon, 19 Sep 2022 19:18:51 GMT

Symptom

- Your logo appears as a broken link in WorldCat Discovery.

Applies to

- WorldCat Discovery

Resolution

WorldCat Discovery only accepts images using the SSL protocol so you must provide a link that uses https:// and not http://. Also note that the logo image cannot exceed 80 pixels in height and 275 pixels in width.

Additional Information

For more information on updating your logo, please visit the Logo Settings help page.
