Answer

To change your max cost for items you would like to borrow:

1. Log into WorldShare.
2. Click into the Interlibrary Loan tab.
3. Click OCLC Service Configuration.
4. Click on the WorldShare ILL tab.
5. Click on the Borrower Data menu.
6. Under Configure Borrower Constant Data field, inside the Borrowing Library Information field;
7. Scroll down to Maximum Cost.

From here you can set your library's constant data for borrowing maximum cost.
