Is there anything we need to do after adding an ILLiad Server Addon into the Customization Manager?

Last updated: Fri, 02 Aug 2019 19:21:13 GMT

Symptom

• You have added a Server Addon in the Customization Manager and you want to know if there is anything else that needs to be done to have the Server Addon to run

Applies to

• ILLiad

Resolution

Make sure your SystemManagerAddonInterval is set to 5 minutes. You need the ILLiad System Manager service restated on the ILLiad Web Server. If you are Self-Hosted, you contact your Web Server Administrator. If you are hosted by OCLC, you contact [OCLC Support](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/Is_there_anything_we_need_to_do_after_adding_...).
