How do I add tags to my Email Import?

Symptom

- You have set up Email Import and you want to add new tags so you can have more information come over to ILLiad

Applies to

- ILLiad

Resolution

Here are the two items you need to follow for the updating of the Email Import Tags.

1. Follow the instructions for Configuring Email Importing to add additional tags.
2. Also, look at the Creating Users From Email importing documentation.
