How do I apply a different Constant Data record to a borrowing request in ILLiad so that the correct information is applied to the request?

Last updated: Fri, 24 Jul 2020 21:31:52 GMT

Symptom

• You have different addresses set up for Constant Data Records. ILLiad is applying the Default Constant Data record, but you need to know how to apply a different constant data record to the request.

Applies to

• ILLiad

Resolution

You can apply one of your other Constant Data Records to the Request form when you are in the Workform. Please see the Searching & Sending Requests: Creating and Editing the Work Form documentation.
