How do I make changes to an existing OCLC Request in ILLiad?

Last updated: Tue, 10 Sep 2019 21:17:27 GMT

Symptom

- You sent out a request in ILLiad and you need to make a change in the request

Applies to

- ILLiad

Resolution

Here are the options for updating an OCLC Request

1. In ILLiad, you follow the instructions for [Making Changes to an Existing OCLC Request](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/How_do_I_make_changes_to_an_existing_OCLC...).
2. If you are unable to update the request fields you want in ILLiad, you will need to use WorldShare ILL interface to update the request. More information is found in the [Create and edit Requests](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/Create_and_edit_Requests) help page.
