How can I change the language of interface text in WorldCat Discovery?

Symptom

• You want to see a different language in WorldCat Discovery.

Applies to

• WorldCat Discovery

Resolution

You can change the language used for WorldCat Discovery's user interface using a drop-down setting that can be found at the bottom of the page on the left hand side.

Additional information

This is not the setting that controls the languages of results in searches. That can be found in the Advanced Search page or in the filters tab when working with result lists.
