How does the WebValidation table work in ILLiad because I am getting an error message when trying to register?

Symptom

• When you are filling out the registration form in ILLiad and getting error messages that fields are required and you cannot submit the Registration form

Applies to

• ILLiad

Resolution

When filling out any Web forms in ILLiad, you can require fields to be filled out from the WebValidation form. Here is more information on how it works:

1. You can require fields or remove fields from being required in the WebValidation table.
2. Information can be found at the Changing Required Fields - ILLiad.
