Default Accounts Table in the Customization Manager

Last updated: Thu, 13 Feb 2020 17:35:46 GMT

Symptom

• You turned on Billing and need accounts for your new patrons.

Applies to

This is to be used when you want to give your patrons a billing account when they first register.

Resolution

1. Go into the Customization Manager under System Billing | Setup | Default Accounts.
2. In this table you can setup accounts for new users based upon their STATUS.
3. You will need to create an entry for each status so every new patron gets an account.
