Web Alerts not working in 9.1 ILLiad Web pages

Last updated: Mon, 24 Aug 2020 20:15:52 GMT

Symptom

Certain web alerts not displaying properly if you are using the 9.1 web pages.

The System and Username webalerts work, but the Status and DeliveryLocation ones are not working.

Applies to

Only the 9.1 web pages are effected.

Resolution

The workaround is to add the alerts tag to your web page.

<#ALERTS>

Or to follow the instructions on the Adding new lines to the web alerts breaks the alert documentation.
