If I am using Z39.50 with Decision Support Pipeline in ILLiad, what does Z39.50 check?

Symptom

- When using Z39.50 Decision Support Pipeline in ILLiad, you want to know what fields does Z39.50 check

Applies to

- ILLiad

Resolution

You can find an example on the Decisions Support Pipeline in the Business Rules Workflow and Examples documentation under the Second example Example 2- Checking Your Own Holdings.
