Why are dates before reservation blocked in MuseumKey or LendingKey?

Last updated: Wed, 31 Mar 2021 19:07:00 GMT

Applies to

• MuseumKey
• LendingKey

Answer

The logic of the reservation system requires that a number of dates before a pickup date be blocked in order to avoid a scheduling conflict. For example, if a thing has a loan period of 7 days, the preceding 6 days must also be blocked as a pickup date to avoid running into the next pickup date.
