In the ILLiad 9.1 Web pages in the ViewDefaultDetailed.html page it is correct, but the popup when you mouse over the status showing in the ILLiadMainMenu page, it shows a time that is different than what is in the Tracking table

Last updated: Thu, 24 Jun 2021 13:35:06 GMT

Symptom

- In the ILLiad 9.1 Web pages in the ViewDefaultDetailed.html page it is correct, but the popup when you mouse over the status showing in the ILLiadMainMenu page, it shows a time that is different than what is in the Tracking table

Applies to

- ILLiad

Resolution

The problem shows up in these two situations.

1. In the ViewDefaultDetailed.html page
2. Also, DLL shows incorrect date/time on transaction notes
3. The issue will be fixed with the Version 9.2 upgrade to the DLL.
