Answer

You can know control how fields are required in the html of a page. Changing Required Fields

Additional information

Here are examples of what the old field looks like and what you can do to make it required if you are on 9.2 of ILLiad.

Change this:

```html
<div class="form-group col-md-9">
  <label for="PhotoJournalTitle">
    <span class="field">
      <span class="req">Title (Journal, Conference Proceedings, Anthology) (required)</span>
    </span>
  </label>
  <span class="small-notes">Please do not abbreviate unless your</span>
</div>
```

To this:

```html
<div class="form-group col-md-9">
  <label for="PhotoJournalTitle">
    <span class="field">
      <span class="req">Title (Journal, Conference Proceedings, Anthology) (required)</span>
    </span>
  </label>
  <span class="small-notes">Please do not abbreviate unless your</span>
</div>
```
citation is abbreviated
</span></div>

your citation is abbreviated
</span></div>
